Interesting Letter From Prof. Bramwell

The numerous friends of Prof. Bramwell will be pleased to read the following letter received by the Leader last week.

Snowflake, Arizona
Sept. 25, 1914

Editor, The Leader,
Raymond, Alberta.

Dear Mr. Editor:-

Perhaps a few lines from this far-off land of the south might be of some interest to the good people of Sunny Southern Alberta. If so, use them; if not, into the waste-basket with them.

We thoroughly enjoy our work here. At this writing, we have between 95 and 100 students registered, all high school. This is the best opening enrollment in the history of the Academy. Our music department is excellent, with a choir of 40 voices and a growing orchestra.

The students, as a rule, are devoted to their work. They are certainly about of beautifully clean and pure boys and girls. However, as compared with the so-called government students of Alberta, they do no better work, perhaps not quite so good.

There is an excellent climate here, very little for sale. If Arizona had the water, which it will have in time, look out for it. We are somewhat disappointed in that there is not so much fruit raised as we anticipated. Early spring frosts often catch the buds.

Snowflake is a pretty little town but cannot, for many years at least, become a commercial centre. We need some of the "push", so characteristic of western Canadian towns and cities.

In your report of students who applied for government credit from the Knight Academy, you evidently made a mistake. Will you kindly correct it? You did not take into account the first-year students whom we recommended to the Department for credit, and which credit the Department granted. In all, the Academy has sent up 41 students for credit during the last two years, and out of this number 35 passed the required tests. This, in my judgement, is a pretty good record.

Mrs. Bramwell has not been well in Arizona, thus far. We hope she will be better soon. The altitude (5700 above sea-level) may affect her. Apart from this, we are all just fine at present. And, moreover we are happy in our work.

Through the columns of the Leader, may I send greetings to my friends in the far off north country? I can say, without mental reservation, that they are the dearest friends I have in the world. How I would like to drop into Alberta just long enough to shake their hands and attend one of their spiritual meetings! May they be blessed and prospered.

The Leader reaches us quite regularly. It takes the place of many letters from home. Certainly, Mr. Editor, you have given tone and literary merit to its columns. Success to you.

With kindest wishes to all,
I am, Sincerely yours,
ERNEST BRAMWELL

Confirms German Atrocities

Letters and papers received from Belgium by Leo Van Assel confirm the atrocities committed by the German invaders, although his sister says their crimes are ten times more horrible than pictured. Their deeds are too revolting to describe.

Of the heroism of the English troops they speak in the highest terms. At Obourg, a small town in Belgium, 15 British with 4 field pieces defending the railway depot defeated 2,000 Germans killing more than half the force. In this instance the brave British soldier with one gun after holding back a German force for some time, fell dead his body full of bullets.

George T. Wride, a prominent local Conservative, represented the Raymond executive at the party caucus held Friday last in Taber. Mr. Wride stated that the meeting was an enthusiastic one, all the delegates manifesting loyalty to both the federal and local leaders. He brings the good news, also, that the Superior Board of the Government is working in connection with the distribution of the government aid.

"Syd" Reeves, a well-known figure, spent a few days in town this week after a season's work on the reclamation project in the northern part of Montana. Mr. Reeves told The Leader of the splendid work being done by the ladies of Cardston. They are just full of Red Cross work—so full of it that one of the good songs resulted in a Red Cross song before he escaped. But the donation went with the heart of the giver, for "Syd" is a true son of Britain.

Mrs. Larson, wife of Lars Larson, of Magrath, died in the Galt Hospital last Saturday and the funeral service was held Sunday. The deceased was one of Magrath's citizens, and her death at the age of 36 years is generally deplored.

Mark V. Croxall and D. G. Selman were guests of the M.I.A. officers of the Magrath ward at the opening social held there Tuesday evening.

Thanksgiving Day was quietly observed in Raymond. On account of the extremely muddy weather the harvest dinner was postponed, also the public school concert. The contest, however, will be held next Tuesday, October 20th.

J. F. Gordon, of the provincial government survey department, spent Thanksgiving Day with his family here. He returned north Wednesday morning.

As if by magic the snow has disappeared before the salubrious Chinook and farmers are again in the fields. Potato digging is general and last pulling will follow in a few days.

GERMANS CLAIM OSTEND FELL INTO THEIR HANDS ON THURSDAY NIGHT

The German War Office says Ostend fell last Thursday. This lacks confirmation from London and Paris.

The Canadian troops are now on Salisbury Plains preparing for their departure for the front.

Heavy fighting continues in the vicinity of Warsaw.

The Allies have been driven out of Lille.

On the left wing the Germans suffered a serious repulse.

The situation in South Africa is greatly relieved and assurances of fidelity to the British Crown are pouring in on Premier Botha from every part of the Union.

Newsy Items of Local and General Interest

O. H. Snow returned this week from Salt Lake.

Miss Jensen, of O'Brien-Nalder's staff, attended the dance at Magrath Monday evening.

Miss Besse Clipman, stenographer at the Bank of Montreal, is now permanently located in the city having rooms at the residence of Mrs. Rouse.

E. Organ writes his wife to the effect that he is in France and is well. They are not allowed to write further.

L. Jensen and Wilford Palmer returned this week from Saskatchewan, where they disposed of a car of horses.

Read the special display ad. on the "Rehall" store, Blair and Co. in this issue.

Rev. Mr. Simpson was a visitor to Lethbridge Tuesday.

O. F. Ursenbach has accepted a position in the office of the Raymond Mercantile company. Mr. Ursenbach is a specialist in the commercial branches.

Miss Laura Redd, who is teaching in school east of Taber, spent Thanksgiving day here.

George Brewerton writing from Birmingham, England, to his father says that missionary work is practically at a standstill, and the elders may be released any moment.

The management of the Card Hotel has closed the dining-room and it will not be reopened until next Spring when this popular house will be made a strictly up-to-date hostelry.

Founder's Day will be commemorated Tonight (Saturday) at the K. A.

By a recent ruling all Academy dances will close promptly at 11 p. m.

The enrollment has now reached sixty-three. Isn't that just splendid? There are a live, energetic quota out of town students registered now. They follow: Mr. Spackman and Miss Bradley, of Stirling; Marie Hindley, Emma Mercer, Fern Heninger, Bertha Gibb, Arlie Hudson and Ellis Heninger, all of Magrath.

The K. A. will soon have a real modern "gym." A gallery, shower baths, and dental apparatus, etc.

are being installed and regular classes are held three times weekly for boys and twice weekly for girls. The fee for those not regularly enrolled is \$2 for the year.

The Academy wants a school song. Why not try your skill at the poet's art? The contest is open to everyone and the MSS. should be addressed or delivered to the President. The best song poem will be selected. Many a land lady will be awakened in the small hours of the morning by the mad ravings of poetic maniacs disguised under the inoffensive cloak of "star boarder." As a result of this announcement.

Irrigation Congress Splendid Success

Normal School For The M.I.A.

Mr. Oscar Kirkham and Miss Beesley, of the general board of the M.I.A., will conduct a normal course for Mutual workers of the Taylor stake in the Knight Academy for three days next week commencing Monday at 9 o'clock. On Monday evening the stake board will entertain the visitors from the south and the ward officers at a social and dance to be held in the Opera House. On Tuesday night a grand public ball will be held when some of the new dances will be tried.

Wanted to Purchase

60 head of good weaner Calves or Yearlings, yearlings preferred, steers and heifers. Will pay reasonable price for good stock.
A. Wardman, Burnis, Alta.

Nice front room unfurnished. Lights and water, convenient to Schools.
Apply to J. M. Boyson, Meat Mkt.

LOST—A Pearl, sun-burst pin between the Presbyterian Church and the Rex theatre. Return to The Leader office and receive reward.

The cub reporter lost his hat at the Mutual party last night. It was an innocent, brown creation with a tiny buckle on one side. If it comes your way kindly head it toward this office.

WANTED—A Girl for General Housekeeping. Apply.
Mrs. L. P. Skouson, City.

FRESH EGGS WANTED. We pay highest cash prices. Sugar City Cafe.

Elders Heber F. Allen and Octave Ursenbach were passengers on Tuesday's train for the south. They will go direct to Salt Lake and from there east over the Union Pacific to Chicago, where they will be assigned their fields of labor. Two young men will likely be absent two years. A large number of their friends were at the depot to witness their departure.

Don P. Skouson, who has been teaching at Graton for the past six months, spent week-end in the city, departing Tuesday morning for Edmonton, where he will continue his studies at the University. This is Don's junior year at the "U." We wish him all kinds of success.

"Altalia" Tanner, Raymond's lucerne king, advises The Leader that his alfalfa seed was not injured in the least by the recent snow storm. Mr. Tanner is an optimist of the gilt-edge variety and a town cannot have too many citizens like him. We are going to say something about his achievements in an early issue.

Messrs H. S. Allen and James R. Ellison, Raymond's delegates to the International Irrigation congress held last week at Calgary, bring home a wonderful story of the success of the big gathering, and of the splendid hospitality of the good people of Calgary and the officials of the C. P. E.

Speaking of the Congress Mr. Allen made the following comments: "The Congress was great although the attendance was a little light. The papers were excellently good, and the opening address by President Young was a masterpiece of logic and oratory. The district exhibits, especially those from the B. C. fruit belt were wonderful. I never saw such fine apples and never ate as many as I did at the congress. The C. P. E. certainly did make a tremendous impression with their comprehensive display showing the resources of the country tapped by their main line and tributary arteries."

"We were treated royally, and our every want was supplied. The trip to the big dam at Basano was a most pleasant and instructive experience. This is the largest single irrigation project in the world and supplies an area of three million acres. The dam is 45 feet high and is constructed of reinforced steel and concrete. It is a very impressive example of the remarkable capabilities of modern engineering."

In answer to a query Mr. Allen said that a scheme was on foot to amalgamate the dry farming and irrigation congresses.

THEY DID KNOW

(Edmond Harancourt in Le Journal)

"They have destroyed the Pearl of the West, the jewel of the centuries, the monument of faith and devotion, by which the united soul of the Christian world attested its belief, its destiny and its God. We cannot say, as Jesus said at Golgotha, 'Father, forgive them for they know not what they do.' They did know, The German army consists, besides brutes, men who are savants authors, men of genius. They knew, and must share the responsibility for a crime against the human race."

T. Ott and Billy Paris returned last week-end from the wilds. They did not discover a new river, but they have stories that would make Teddy grow pale with envy. The copy for their book dealing with their travels in the jungles is now in the hands of the printers and it will make its appearance some time this fall. It promises to create the biggest sensation since Cook's Expedition to the North Pole.

The first ward M. I. A. held a most successful opening social last Friday evening. The affair was well attended and a most jolly time was had. The concluding number was "God Save the King." The first meeting was held Sunday evening. Excellent lessons are being studied this season and you are cordially invited to attend either at the first or second ward.

A Gentle Reminder.

We were astounded this week at the assertions of a certain citizen of our town, his statements dealing with the rights and privileges of Canadian citizenship. His ignorance of British institutions was pitiful. He belongs to a school of Americans which holds that the United States is the only country worthwhile in the world, that liberty is alone enjoyed within her borders, and that a merciful God centres his entire attention on the states of the great Republic. He never tires of repeating the Declaration of Independence, of proclaiming the beauty of the Stars and Stripes, of boasting of the peace-loving attributes of the American people, of their religious toleration, and last but by no means least, of pouring into your ear this noble but threadbare declamation: "a government of the people, by the people and for the people."

Although he has lived in Canada for years, this man is still an American citizen. He holds that it would be a step backward to become naturalized here, and be ruled by a King. But this is the remarkable thing: we have discovered by investigation that this gentleman is not alone. He has company, and among those who have neglected this sacred right, we were surprised to find the names of men who are leaders in the community, intelligent men, men who make their living here, and enjoy the privileges and protection of English institutions. Is this the right thing to do?

The Americans are a great people. We respect and admire them. But in their speech they sometimes show little consideration for the feelings of others. This man referred to above, in his contention that America leads in the peace movement, evidently forgets that only recently American ships were dropping shells into Vera Cruz, that the Spanish-American war is still fresh in the mind of the public, and the world still reads with horror of the slaughter of the Great Rebellion. He knows nothing of the Magna Charta, the Bill of Rights or the Rise of Parliament. He sees only the American Constitution.

The gentleman was a Latterday Saint, he said, but strange to say he was silent in regards the martyrdom of the Prophet Joseph Smith and his patriarch brother, of the destruction of Nauvoo the Beautiful, of the driving of the people across the western plains in the depths of winter, of the struggle of Utah for state rights, of the attempt to disfranchise the Mormon voters, of the confiscation of church funds, of the sending of an army to Utah by President Buchanan, of the killing of defenceless missionaries—all this he forgets, although it is history. Contrast this treatment with that accorded Latterday saints in Britain—we challenge anyone to point out a single instance of the refusal of police protection not to mention the ruthless slaughter of innocent men.

We believe this article is not untimely. It is not the right thing just now to predict the overthrow of England or to speak lightly of her institutions. There is altogether too much ill-considered sarcasm abroad these days. We trust our motive for writing along this strain will not be mistaken.

Men are making statements here which in most countries would land them behind prison bars.

AMERICAN WOMEN WILL CREATE THEIR OWN MODES

those imported. Foreign importation may get a black eye from the deplorable conditions abroad, but to close again, "Tis an ill wind."

New fashions follow the wars as closely as a flock of sheep follows the shepherd, so it is fairly safe to predict that military fashions at La Russa, a la Serb, etc., will be evolved by our fashion experts.

But variety will make for picturesque. We are inclined too much toward uniformity of garb. Conservative women follow instead of lead; they affirm that they do not wish to be conspicuous. The natural style leader is bound to be noticeable, however, though she is not necessarily obliged to be bizarre. Simplicity is quite as noticeable.

Before the war situation became a menace the importers received some advanced autumn models, four of which are illustrated here.

The motor coat at the extreme left is the only domestic model in the picture. Very often the far lined motor coat is a bulky, shapeless affair, which utterly destroys any semblance of graceful figure lines. This new motor coat, however, is both graceful and up to date. It is of dark green cloth, lined with mink and trimmed with civet. The dress for far traveling is hinted at in this French tailored gown for autumn. Broad bands of Persian paw

outline coat and tunic. The short skirt revealing buttoned boots is another model.

The autumn girl in the country will wear a fascinating new sports coat, the very newest suggestion of the day. This is a white cotton corduroy coat printed in bright orange and black in Mexican style, with figures borrowed from ancient Aztec symbols. The Mexican war is responsible for this style. This is the center illustration.

Buttons will be extremely popular for trimming autumn frocks and tailored suits. The arrangement of large buttons follows in rows, either by themselves or in fancy bands, adds marked style and emphasis to this graceful sport suit of cinnamon brown cloth. Fluted walking boots with tops matching the brown gown above become the short skirt.

Buttons will be extremely popular for trimming autumn frocks and tailored suits. The arrangement of large buttons follows in rows, either by themselves or in fancy bands, adds marked style and emphasis to this graceful sport suit of cinnamon brown cloth. Fluted walking boots with tops matching the brown gown above become the short skirt.

With the onset of autumn, the cause of wars and rumors of war, without imported changes, imported beer and cheese and imported fashions, according to reports from authentic centers of information.

American designers of 'American clothes for American women' are hilarious over these reports, whatever the feeling of disappointment the importers of wines, beers and cheese may feel.

BE SURE TO FOLLOW THE DIRECTIONS

WITH one of the best up to date cleaning fluids come directions to place the fabric to be cleaned on blotting paper or many folds of soft old cloth. The woman who does this will find the pattern of the article cleaned will be reproduced in discolored lines on the blotting pattern, the fluid eating the grease and dust right out. If the blotting paper is not used the fluid will form a ring in the fabric almost as unsightly as the original dirt.

Again, if you are using a patent varnish or stain and instructions bid you first sandpaper the workpiece use sandpaper vigorously. The patented article cannot perform miracles.

Here are some simple remedies for removing spots of various sorts:

Paint—If the paint is fresh, turpentine, alcohol or naphtha will probably take out the stain. If the stain is old and dry try chloroform. Put the portion of fabric to be cleaned over several thicknesses of clean cloth before trying to clean it.

Grass—Use French chalk for grease spots. Apply it thickly and let it stand for several days. If this is not effective sponge the material first on one side, then on the other, with spirit of wine; then press over a piece of thick linen.

Candle Wax—Put a sheet of blotting paper under the spot and another over it. Heat with flatiron and the wax will be removed by the blotting paper.

Milk—White soap and warm water should be used to take out milk stains. It should be used immediately.

Ink—There are various good ink eradicators on the market, and it is well to have a bottle of one of these on hand. Another method is to dip the ink stained article into milk. The milk should not be allowed to dry, but if it does not remove the ink, probably in a short time it should be washed out and a fresh application of milk made.

Tea Stains—Clear warm water should be used to remove tea stains. Coffee—Four boiling water through the coffee stains as quickly after the coffee is spilled as possible. This is a never failing remedy if the spots are fresh. Otherwise it may be necessary to repeat it several times.

Rain Spots—When cloth that has not been sponged is spotted from the rain spread a damp cloth over the wrong side of the material and iron it dry.

Ice Cream—Anything on which ice cream has been spilled should be sponged with chloroform. Use several thicknesses of clean white blotting paper under the spotted article.

Gasoline Spots—Sometimes gasoline leaves a ring on cloth in which it has been used to remove a stain. This stain can be removed by holding the ringed cloth over steam. Sometimes this method does not remove the ring. The only thing to do in that case is to dip the whole of the garment on which the ring appears into gasoline.

Grass Spots—As soon as grass stains are detected on summer frocks cover them with milk-soak or with lard and the stains will disappear.

OCCUPATIONS FOR WOMEN.

OVER 150 young women are employed in a Philadelphia publishing house.

Holland has a machine that a girl can operate and make 150 cigars a day.

Miss Pearl Hodgson of Princeton is manager of the widow pension work in New Jersey.

Eleven young women will leave this country soon to become missionaries in the Congo River.

Elizabeth Meehan, a Philadelphia girl, recently accomplished a feat never before achieved by a woman, that of swimming across Hampton Roads, a distance of seven miles.

Black and White Autumn Tailleur

NO wardrobe is considered complete these days without the alluring tailleur. In black and white the gown is particularly smart. Any woman who wears a black and white gown can feel herself well groomed. She can make absolutely no mistake with this combination.

ROCK CRYSTAL JEWELRY POPULAR.

THERE is a novelty in jewelry as new very that it has scarcely been put upon the market, so exults that every woman who has seen it desires to possess a piece of it, so costly that few are able to purchase any of it, so different from anything heretofore shown, that it promises to become a general craze.

This is the rock crystal jewelry which is encased with pearls and diamonds. The rock crystal is cut in this, flat forms and then etched in such a manner that it is at once a suggestion of the star and the moon. A mounting of platinum is then added and white diamonds only or diamonds and pearls, as milady chooses. The completed ornament is so definitely brilliant that it will be most popular among items for wedding gifts for the approaching season, though it is one of the rare fashions that are so suitable for the girl of seventeen and the matron as for the bride.

One of the best designs in which it is shown is the bar brooch. This is not to be confused with the out of mode bar shirt waist pin. The former is one of the ornaments most in vogue at present. There are, however, to be pieces of this rock crystal loveliness every Jew and every Jewess that is at present in favor. It may be had only of the best of Fifth Avenue jewelers. It proclaims this fact also, for it answers to the demand of the mode of glittering diamonds on the woman of good taste in that it rejects every sort of garnet or paste.

The latest in rings is so constructed that the find is displayed between the fingers of the modeling. The mounting themselves are still of fairly workmanship, so wonderfully wrought are they.

HOW ABOUT THIS?

TUESLIDE luncheon of two or four cuts, slashed and joined again by can be the most enjoyable and extravagant, are another interesting delirium of fun of entertainment in tailoring. Give the right hostess and guests, but a huge daylight banquet composed entirely of women dressed in their best clothes is one to cause dismay to the stoutest heart. It is a vengeance which every traveler-man matter of fact, a laudable waste of time and money.

PURELY FEMINE.

THE happiest girl is able to whom a great variety of hats is becoming.

AN INTERESTING FROCK

A PLEASING effect is secured in the frock for a young girl by combining a short tunic of blue linen with a

THE HUB CO., Ltd.

The Rexall Stores of Canada

Contribute to

THE CANADIAN PATRIOTIC FUND

THE Rexall Stores of Canada, 400 of the leading Drug Stores in Canada have unanimously agreed to contribute to the Canadian Patriotic Fund Five Per Cent. of their total purchases of all Rexall Toilet Goods, Rexall Remedies, and other merchandise manufactured or sold by the United Drug Co., Limited, Toronto, for the months from October 15th to December 31st.

This action of the Rexall Drug Stores of Canada has been undertaken co-operatively, because as a co-operative organization, they realize how much more can be done unitedly than individually, and it has been taken for two reasons—to fulfil a humane duty in raising a fund for Relief Work of the Canadian Patriotic Organization, and a patriotic duty in an endeavor to keep a large staff of Canadian employees busy.

Figuring on the basis of last year's business, this should add several thousand dollars to this humane fund.

The 400 Rexall Stores of Canada make an appeal to your sympathy and support in their deeply worthy cause for increasing the funds of the Canadian Patriotic Organization and for the support of Canadian workmen because—

MOREOVER, Rexall Goods will not cost you a cent more than they have in the past, notwithstanding the fact that the cost of the ingredients entering into Rexall preparations is higher than before the war. The extra cent is being borne by the company, and the Rexall Stores who have, in addition, placed upon themselves voluntarily an extra five per cent. to be devoted to the humane work of the Canadian Patriotic Organization.

Why not, therefore, decide NOW that you will help, during the months of October, November, and December, at least, by favoring Rexall Stores and Rexall Goods? There are a hundred different Rexall products that you can buy and that will give you equal or better satisfaction than similar products of foreign manufacture—Tooth Paste, Talcum Powder, Cold Creams, Toilet Creams, Soaps, Shaving Creams, Perfumes, Toilet Waters, Household Remedies, etc. There's a full list of Rexall Products waiting for you at the Rexall Store in your town.

REXALL GOODS ARE MADE IN CANADA AND YOU CAN PROCURE THEM IN YOUR TOWN ONLY

WM. BLAIR & CO.

Dispensing Chemists

RAYMOND,

ALBERTA

United Drug Company, Limited

The fund that would be raised on the basis of last year's business can be tremendously increased if every man and woman in Canada will help a little by the simple process of purchasing Rexall Goods at the Rexall Stores.

No need to give space in this announcement to emphasize the high quality of Rexall Toilet and Medicinal goods. Sufficient to say that some of the leading Drug Stores in Canada, Great Britain, and the United States place their personal and collective reputations behind them; that the public in these countries endorse them to the extent of several million dollars worth of purchases a year.

Better goods are not made, and you take no risk in buying, for every Rexall Store will return you your money if any Rexall product is not entirely satisfactory and, do it, too, without the slightest objection.

Ask for it—kindly pass the word along to your friends. It is the collective purchases of all that will make this Rexall Store Fund for Canadian Patriotic work a big one.

The fund will be collected from each Rexall Store in Canada by the United Drug Co., Limited, Toronto, and will be paid by them direct to the officers of the Canadian Patriotic Organization, and the amount so collected will be published in this paper when paid over.
